The calculation of fuel cost Rs./kWh and O&M cost Rs./kWh has not been calculated by ISMO Islamabad. The same has been communicated to ISMO by Chief Financial Officer CPPA-G vide letter No.CPPA-G/MIT/5233/3372, Dated 15-09-2025, received in the office of Executive Director (System Operation) ISMO through Email dated 15-09-2025, because ISMO has no any Data regarding heat rate, fuel cost and O&M cost etc.

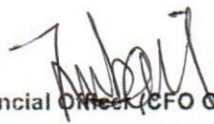

Notes:

- 1 General Sales Tax is not included in the above calculations.
- 2 Basis for RFO rates are on per Metric Ton, HSD rates are on per Litre and Gas rates are in MMBTU.
- 3 Other cost of Uch Power is due to Excise duty on gas.
- 4 RFO Revised Rates are calculated on the basis of weighted average fuel stock as provided by relevant IPP is used for merit order. Where accurate fuel stock position is not available, latest FCC rate is used for merit order.
- 5 Latest available RLNG rates as notified by OGRA have been used.
- 6 Variable operation costs have been used for merit order compilation pursuant to SDC 1.6.1.1 of the Grid Code 2023.
- 7 Plant Availability on Any specific Fuel must be confirmed before the Dispatch is given.
- 8 The FCC rates have been assumed at 100% plant factor i.e. unity Part Load Correction factor. The rates may, therefore, vary at different operation / Despatch level after application of Part Load Correction (PLAC) factor given in the PPA. Therefore, PLAC be taken into account before issuing despatch instructions.
- 9 The dedicated gas projects require minimum despatch of 50% against their availability on gas under respective PPAs, otherwise, shortfall energy have to be paid.
- 10 Open Cycle tariff included in line with NEPRA direction to NPCC to give despatch to Open Cycle vide NPCC letter no 10677-82 dt 16-04-22.
- 11 KAPCO Block-I & Block-II (LSFO) are added in the current Merit Order.
